

High Yield Private Wealth Strategy

3rd quarter 2017

Tortoise Credit Strategies, a registered investment adviser focused on fixed income strategies, acquired Bradford & Marzec along with key Bradford & Marzec employees through a Tortoise-supported management buy-out. Bradford & Marzec, a specialized fixed income boutique, was founded in 1984 and has a 33-year track record in fixed income investing. Tortoise Credit Strategies had approximately \$4.0 billion in assets under management as of September 30, 2017.

Highlights

People

The highly experienced senior investment team averages more than 30 years of investment experience

- Supported by seasoned sector specialists and in-house credit analysts
- Fixed income investing since 1984
- Team members have managed fixed income assets through multiple economic and financial cycles

Philosophy

Our philosophy has remained consistent since inception

- The same investment philosophy has produced sound results since the company was founded
- Our emphasis on liquidity enables us to position portfolios in anticipation of market cycles
- Our conservative philosophy has shown resiliency in times of market stress

Process

Our top-down, bottom-up, repeatable investment process has been refined over decades of market and economic cycles

- Top-down, team-based process sets portfolio parameters and targets relative value and market inefficiencies
- Portfolio managers develop industry strategy based on top-down economic and business cycle trends and credit analyst assessments
- Excess return targeted by actively managing the drivers of performance, primarily sector/industry rotation and credit selection, against the benchmark

Performance

Long-term performance goal

- To produce competitive risk-adjusted returns exceeding the benchmark over multiple market cycles, primarily through security selection and sector/industry rotation
- Successfully navigated inflection years of 2008, 2014 and 2015

Investment philosophy

We believe that the global, macroeconomic environment is the primary driver of returns within the fixed income marketplace, and that understanding the trends within this environment provides us with the best opportunities to add value. Our disciplined approach utilizes a top-down, sector and industry rotation investment style that is integrated with independent, bottom-up fundamental, technical and valuation analysis for issuer and security selection.

We focus on diversification and risk management over all aspects of the investment process. Portfolios are positioned by taking a 6 to 12 month view of the economic and market cycle. Our size and focus on liquid securities helps us rotate sector weightings in a timely manner with minimal transaction costs.

Inception: 1/1/2008. Returns less than one year are not annualized. Performance numbers labeled as "gross" do not reflect the deduction of management or wrap fees. Net of fee returns are calculated using a model fee, which represents a fee at least as large as the highest separately managed account fee rate and highest sponsor wrap fee rate, respectively, applicable to any individual composite constituent for the period shown. Model fee rates represent a fee at least as large as the highest fee rate in effect for the period shown, not taking into account minimum fee amounts expressed as a dollar amount. Accounts that fall below minimum account requirements or are otherwise subject to a minimum dollar-based fee may be subject to a higher fee when expressed as a percentage of the portfolio. For returns shown net of management fees, gross returns have been reduced by a fee at an annual rate of 0.55% of average net assets, assessed and compounded monthly. For returns shown net of management and wrap fees, gross returns have been reduced by a fee at an annual rate of 2.70%, assessed and compounded monthly. Actual fees may vary depending upon, among other factors, the applicable fee schedule for the wrap program in which a composite constituent is enrolled. In June 2016, accounts previously managed by Bradford & Marzec transitioned to Tortoise Credit Strategies and are linked to the performance of Tortoise Credit Strategies. The historical composite performance records of these accounts meet the portability requirements set forth by GIPS®. Index returns do not reflect the effect of management or wrap fees. Returns are presented in U.S. dollars. It is not possible to invest directly in an index. Please review the disclosure statements located on the back of this fact sheet. *Data above chart is composite (gross of fees) vs. benchmark. **Past performance is no guarantee of future results.**

The High Yield Private Wealth Composite includes all discretionary private wealth and wrap fee accounts without maturity restrictions that are invested primarily in High Yield fixed income securities. All accounts in the High Yield Private Wealth Composite are managed to a model portfolio. All accounts meeting these criteria, regardless of size, are included in the composite. The High Yield Private Wealth Composite has an inception and creation date of 1/1/2008. On 6/20/2016, the composite name changed from SMA High Yield Composite to High Yield Private Wealth Composite. The applicable benchmark for this composite is the Citigroup BB/B (excluding split-rated B/CCC) Index, a U.S. dollar-denominated index, which measures the performance of High Yield debt issued by corporations domiciled in the U.S. or Canada. Recognized as a broad measure of the North American High Yield market, the index includes cash-pay, deferred-interest securities and debt issued under Rule 144A in unregistered form. It excludes split-rated B/CCC securities. Diversification does not assure a profit nor protect against loss in a declining market. All investments involve risk, including loss of principal, and there is no guarantee that investment objectives will be met. Investing in the bond market is subject to risks, including, but not limited to, market, interest rate, issuer, credit, inflation and liquidity risks. A discussion of material risks may be found in our Form ADV Part 2A. Tortoise Credit Strategies, LLC ("Tortoise Credit") is a registered investment adviser focused on fixed income related strategies that manages investments for institutional and individual clients. Tortoise Credit claims compliance with the Global Investment Performance Standards (GIPS®).
